Numbrs Personal Finance AG

Product Owner

April 2017 - March 2018 (1 year)

Zürich Area, Svizzera

As the Product Owner of the Mobile Banking Team, my role was to manage all the main stakeholders involved in the creation of the best mobile banking experience. Alongside the team, we work on several and different projects, including the launch of Numbrs in the UK market, an improved registration process that boosted growth, the enhancement of credit cards and recurring payment support.

Deep analysis, coordination, problem-solving, stakeholders management, sprint planning and management, roadmap definition were some of the main activities that involved me on a daily basis.

Phoenix Informatica Bancaria SpA

Project Manager and Service Designer

October 2009 - March 2017 (7 years 6 months)

Trento Area, Italy

Phoenix Informatica Bancaria aims to improve financial services through innovation technology. My role is to explore, design and develop new services to enable the remote relationships between banks and customers.

My role was to design new services and manage their development across different business units.

Bonetti Giorgio S.r.l.

Management and customer relations

2008 - 2009 (1 year)

Bonetti Giorgio S.r.l is an Italian based company who deals with silicon for the photovoltaic industry.

The core business is processing "pot scrap" silicon that comes from the Czochralski growing process. However, the company works also with another kind of products like Tops&Tails, wafers, and polysilicon.

My personal task was the management of international customers and market monitoring.

Università degli Studi di Trento

Lead Java Developer

May 2007 - January 2008 (9 months)

Trento Area, Italy

My main assignment was to develop Java software solutions for the “System Engineering for Security & Dependability” group.

DIT, University of Trento

Lead Java Developer

December 2006 - March 2007 (4 months)

Trento Area, Italy

My main assignment was to develop Java software solutions for the “System Engineering for Security & Dependability” group.

IPK Fraunhofer Berlin

Researcher in Security Technology

September 2004 - March 2005 (7 months)

Berlin Area, Germany

Internship with Leonardo Da Vinci Europe Project. I worked as web developer in assistance to the research group focused on digital watermarking.
